

# A Clarion Call to Join the Army

April 17, 2007

*My heart was again grieved to witness reports of killings motivated by evil on the campus of Virginia Tech. Over the past year, repeated assaults in various states and locations by gunmen upon elementary, high school and college campuses reveals the enemy's attack against the rising generation.*

*The following morning during prayer, the Lord prompted me to share some of the visions and warnings revealed to me during the past year in regards to our youth.*

*Join me as we continue to pray for this generation!*

## **This is just the beginning**

POSTED: 12:04 p.m. EDT, April 17, 2007

**(CNN) -- At least 31 people were killed Monday in two shootings at Virginia Tech, according to a state official, making it the deadliest school shooting in U.S. history.**

What occurred yesterday at Virginia Tech is just the beginning of future unfolding events in this nation. A few months ago the Lord showed me several visions and dreams about secret schools in this nation training suicide bombers. I shared this vision with a few in our inner circle of friends.

In July 2006 the Lord showed me in a vivid vision how children will be shot in schools and campuses. He then urged me to pray and gather praying people together to avert this. In response we sent out emails calling pastors to pray, and on September 29, 2006 hosted the CAUSE - 6 hour fasting and prayer to avert the killings. Many of you may recall that in that same week we witnessed several shootings nationwide.

## **Plan of the enemy**

- 1) The **enemy hates the young people arising into their God given destiny**. So he is trying to kill them, and put a spirit of fear and discouragement in them.
  - Abortion has already been there for 40 years killing untold numbers of prophets and priests.
  - Churches and leaders have been callous and without discernment. Kids whose destiny to change nations, have been removed by the hands of killers. I have also seen visions of young people being killed because of their faith in schools and colleges.
  - Suicide and drug related deaths would skyrocket.
- 2) The enemy has already infiltrated this nation and established several cells and training schools, where they teach how to hate and execute suicide bombings. Young people born and brought up in this nation are being indoctrinated with

ideas of killing people and becoming suicide bombers. Their only mission in this world is to destroy this nation. These are young people from the ages of middle school all the way to college age.

## **Suicide Bombers**

In February 2006 I saw a vision of a suicide-bombing mission. I saw a huge building, like something in downtown Chicago area suddenly blasted off. I can see people running in all directions. But in the middle of this chaos I see two young boys on bicycles, leaving the place very sneakily leaving the place with a look of knowing exactly what is going on. And as I saw these two young boys, I knew these were the ones that were responsible. Their own friend, another young boy, was the suicide bomber blowing himself up.

During that same week the Lord showed me that mass killings of young people and **"young people bringing destruction in this nation"** – events unprecedented. The devastation this nation saw from terrorists will not compare to what is coming. But very soon the young people that are being trained now as suicide bombers in this nation are going to rise. Suicide bombings by young people against large buildings and businesses are going to bring havoc to this nation.

These young ones are already being trained and some of them are ready to graduate into their missions.

In December 2006 on my way back from India mission trip, the Lord put a great burden on my heart and said that I have to drop everything that I am doing and only focus on the youth. Then again, as I was in meeting at the Rodney Howard Brown, the Lord loudly and clearly asked me "WHAT ARE YOU DOING?! I TOLD YOU TO RAISE AN ARMY". In October 2006 the Lord spoke the same thing. **This is the time and moment for the Gideon's Army to rise up.** Few weeks later a visiting pastor who I have never met before, came and told me, "Gideon, come out of the wine press into the plains. I told you to raise an army!"

I said yes Lord; I WILL ONLY FOCUS ON THE YOUTH, BECAUSE THE LIVES OF YOUNG PEOPLE ARE AT STAKE. THE FUTURE OF THIS NATION IS AT STAKE.

**My heart is gripped with the seriousness of the times we are in.  
The future of this nation is in the hands of the young people.**

## **Hope Does not Disappoint Us**

God loves America and has said that the youth of this nation will arise and will bring this nation into its destiny.

God said over and over in my heart, in my hours of travail and intercession that "I will raise up the youth, the youth are the key. They are the key generation. Help them, Help them! Be a midwife to bring forth these young warriors who will take this nation back to God."

Today I am calling the leaders of the churches to stand with us, as we raise up an army! For it's time for the sword of the Lord to be revealed. It's time for the sword to come forth. Yes the Sword of the Lord and the Sword of Gideon. Gideon's army will carry their sword, their torch and their pitchers. They will sound the trumpet and will be ready to give their lives for the sake of the CALL. Now is the time to arise. The youth will take back this nation. It's not going to come from programs, but from passion and intercession. Prayer is the answer, not prayer as we know of so far. But prayer that will change the destiny of this nation, intercession from the very heart of God.

*This generation will see a revival like never before in the history of this world.  
The youth will arise and possess this land.*

## **What to Do?**

We are not going to win this generation. The youth will win their own generation! But we need a place to impart and put the fire of God on these young people, so they will be willing to give their lives for the Gospel in their schools and their campuses. We need Laborers willing to submit to the vision that God has given us for the youth.

Come join hands as we pray and intercede for this generation.  
Let God arise and His enemies be scattered.
