

3.00 A.M Dec 26th 2007.

The Lord asked me to declare 7 things that will occur in 2008. Not one word of Samuel fell to the ground. I woke up as usual at 3:00 am and remembered a dream as I was just sitting on the bed. In this dream my pastor from India was telling me to be ready to preach and to be ready to declare what the Lord speaks. At that point I knew I was the one to share for the January 5th event at the Stafford Centre. So as I sat down to write what the Holy Spirit was giving me, the Lord spoke that He was going to give me 7 things that will happen in 2008 as a prophetic word for America and the world. And He said "you have to tell the people about it on the Jan 5th meeting." I began to write and it flowed like a clear stream of water. When I had written all the 7 points, then I felt like the water faucet suddenly stopped and nothing else came out. Here are the words for 2008.

1. A Year of breaking forth. A year when the straw will break the camels back. It's the year when things that have been under pressure, but not broken will break forth. Both in the spiritual and the demonic world. Nationally and internationally.
2. A spirit of betrayal will rule nationally and internationally. The very nations that received help from this nation will turn around and betray America. As America betrays Israel, so will America be betrayed by other nations. Mitt Romey will play this key role.
3. There will be more mass killings or murders in this nation especially among the youth. People will be afraid to send their kids to schools and campuses. There will be much disillusionment among the people looking for a safe America. America's economy will become unstable with highs and lows; there will be ups and downs with people and policies. One side of the economy will do well, whereas other areas will suffer much. The spirit of Jezebel will rise to great significance nationally and internationally. This woman jezebel will rule this nation and will control the course of history.
4. There will be great efforts world wide to evangelize. The fire of evangelism will fall everywhere. People that are prepared will be greatly used of the Lord. From the children in kindergarten to the people on Capitol Hill, from the businessman to the student, the kingdom has come. The kingdom mindset will come in this year like never before.
5. New inventions in medical science and technology will come up this year, these will be breakthroughs that people have never had before.
6. Global peace and security will be greatly threatened and travel will be restricted due to security issues. One nation will try to launch a nuclear attack but will fail. Severe set backs in Global harmony. But the lines will be drawn and it will be black and white, clearly marking who falls on which side for the sake of Israel. Pakistan has to be watched closely this year - much turmoil will spill forth from this nation to other Arab nations and trigger events and accelerate things in the wrong direction. Much chaos and smoke will be seen this year. Israel and Pakistan will play major roles this year.
7. The church will go from strength to strength in the nations. There will be much bloodshed for the sake of the gospel, but the work of the Lord shall move mightily and strongly like never before. Whole regions shall come to know the Messiah. The church in America shall have (Malachi 3) shakings and much exposure; those who do not fall into the kingdom mindset will dwindle down. Ministries and churches in the forefront of evangelism and prayer will be elevated in the nations. More missionaries will be called into America like never before.
